### What Shades Do Nudestix's Lip + Cheek Balms Come In? The Collection Has All The Staples — PHOTOS

By Kali Borovic | May 6, 2016

If you're looking for a two-in-one product that's perfect for spring, you've found it. [Nudestix created a Gel Color Lip + Cheek Balm](#) that's perfect for on-the-go application. If you're wondering how many shiny, gloss-like colors are in the collection, you'll be happy to know that the company has all the staples that you'll need this season. This could just be the must-have products of the summer for all you high-gloss beauties out there.

It couldn't have been easy to create a gel lip color that also looks good on the cheeks, but Nudestix has hit all the bases. Ranging from a clear, barely-there color to bright red, there's something in this new range for every single style. All eight colors — Wicked, Pulse, Posh, Haven, Luxe, Siren, Fate, and Rebel — are the perfect balance of shine and color to make for one standout look, no matter where you put the products.

Although the company has only shown what the product looks like on the lips, I can only imagine how great the glossiness is on the cheeks as well. It's like a cream blush meets a highlighter. Plus with it being in pencil form, application will be super easy.

You can pick up these stylish little sticks from [Sephora in stores or online](#). For just \$24 you have a two-in-one, 30 percent plant based, moisturizing product. You really can't beat that! Glossy lips and glowing skin are perfect for spring, so these little guys came out at the right time. Before you start your spring makeup shopping, take an up close and personal look at just how gorgeous they all are. I will warn you though, after seeing them you'll want to buy every single one.

## 1. Haven

With just a subtle hint of color, this color is perfect for making your lips look alive without going too bold.

This is ideal for everyday.

## 2. Luxe

This one packs a whole lot more color. It's still in the light pink family though. If that's not the best spring and summer shade, then I don't know what is.

## 3. Posh

This is another nude, but with mauve-ish undertones, so it great for a variety of different skin colors.

Also, my inner '90s kid really loves that this shares a name with a Spice Girl.

#### 4. Pulse

Pulse is the perfect mixture of pink and red without being too bold.

This might just be my favorite color of them all.

#### 5. Wicked

This cool-toned red is absolutely gorgeous if you're looking for something glossy that also delivers on the color.

This color is completely mesmerizing.

## 6. Rebel

Don't be fooled by the bright pink, this is a bit more sheer than it looks on the stick.

The gel formula of this pink makes it so unique.

## 7. Fate

Another nude shade, this will bring the perfect amount of brightness to your lips.

Nude meets pink in the most unique way possible.

## 8. Siren

If you couldn't already tell, this is the boldest of all.

This is definitely the most intense gloss I've seen in a while.
