## [WRITER'S PICKS] 4 Beauty Products For The Girl On The Go

I am one of those women who needs everything to be done quick and efficient in the mornings. I barely even have time for coffee! Having said that, I rarely compromise on my makeup routine as I want to look the best each day for the office or for when I'm out networking. My makeup routine has to be kept simple, doable in under 10 minutes, and it has to last all day.

Here are some of my very faithful beauty products that haven't failed me, and continue to inspire my daily confidence:

## 2. **Nudestix** Magnetic Eye Colour Night

This is an eye shadow pencil that also doubles as eyeliner. It works perfectly well along the lower lash line, and glides smoothly across my eyelids, giving me dreamy and smoky eyes. It is long-lasting, and the tip is soft enough to work with swiftly. The packaging comes with a sharpener, and fits nicely in my handbag.
