Our beauty editors reveal their summer must-haves You'll want to grab these bad boys a.s.a.p.

It's summertime and the livin' is easy, right? Well it can be, if you have the right products on hand.

Your face and skin can take a beating with the bright sun shining down and sometimes you also don't really feel like laying it on thick when it comes to makeup. The benefit of summer is that you can take it easy and just pull off a natural, laissez faire look. And, trust us, we feel the same way.

We love beach wave hair, soft summery scents and flushed cheeks as much as anyone. So, we've curated our very best, must-have summer essentials—so you don't have to. Hair, makeup, skincare—and more—, we've got you covered. Take a look and grab these beauties a.s.a.p.
