## NUDESTIX Review

May 22, 2016

I'm excited for today's blog post because I always love trying out new products and blog reviews are one of my favourite articles to read.

Today I'll be testing + reviewing *lipsticks* from Toronto based company, NUDESTIX.

### *Packaging + Shipping*

Can we talk about the packaging for a second? It's AMAZING! I was so impressed with how the lipsticks were displayed.

They come in metal tins with a built-in mirror, a sharpener, how-to instructions, and some info about the product.

Shipping was very quick, my package arrived within a week!

## *Lip Colours*

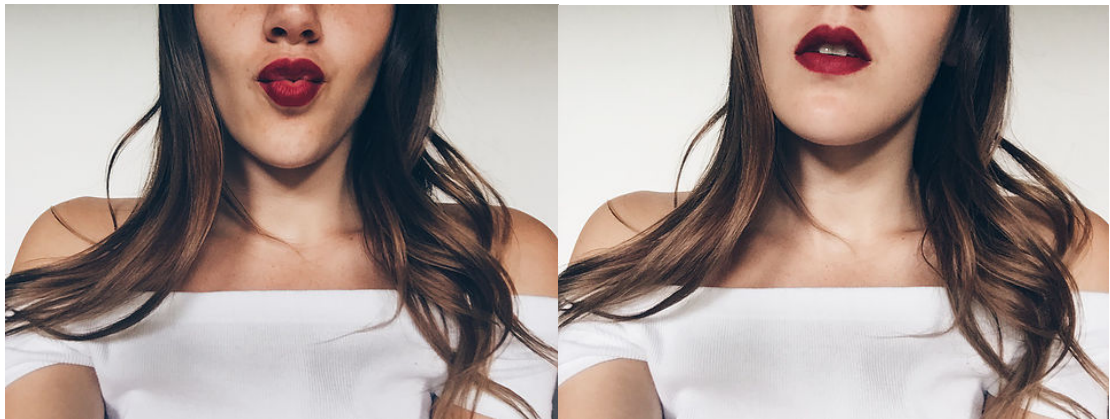

NUDESTIX was kind enough to send me a couple different lip colours, two matte + two gel lips.

### *MATTES:*

"Purity"

"Raven"

# NUDESTIX

GELS:

"Luxe"

"Pulse"

I've only had these lipsticks for about a week and I'm already obsessed. The quality is amazing, they apply so smoothly, and they last the day with only needing one or two touch-ups.

NUDESTIX has a variety of other shades + colours, as well as many other beauty products - check them out [here!](#)

Thanks NUDESTIX ♥♥
