#TipTuesday: 2-in-1 Beauty Products That Make Life Easier

By Nikki Brown | August 16, 2016

Although a 10-step [makeup routine](#) is fun to watch, it isn't practical for day to day. If you want to clear space both on your schedule and inside your [makeup bag](#), multitasking beauty products are the way to go.

We put together three classic combos that every girl should have in her beauty repertoire. If you're constantly on-the-go, this core trifecta is going to make life so much easier.

COMBO #1: Lip & Cheek

We're not sure who's responsible for creating the first lip and cheek duo, but we're eternally grateful. When you want naturally flushed cheeks and rosy lips at the same time, a two-fer tint or makeup pencil makes it super simple.

Key Product: Our [August BeautyBox](#) includes [Nudestix Lip & Cheek Pencil](#),

a travel-friendly find that can be used to quickly draw and blend a minimal makeup look. The colors are neutral, making it a staple for all skin tones.
