Are you super lazy when it comes to doing your makeup? You want to look like the best version of yourself, but have zero interest in a Kylie Jenner-esque 15 step beauty routine.

I'm definitely OK with intense makeup time – I'm not a beauty editor for nothing, guys – but for sure, **some days I just CBF with the whole affair.** Like, weekend brunch doesn't need to involve finishing powder, you know? I'm always on the lookout for products that can give me the "I tried" look, without being complicated to use. These are a few that have been getting me by of late.

NUDESTIX

Nudestix @ Sephora Magnetic Eye Color Pencil in Angel and Lip/Cheek Pencil in Mystic, \$35 each

Honestly I love every single thing Nudestix comes out with. Arguably the pioneers of the recent beauty crayon trend, **the company literally designs their products FOR lazy gals.** I especially love the multi-tasking eyeshadow and lip/cheek crayons. The 'Angel' shade in the shadow **works brilliantly as both a subtle shadow, and an illuminator.** And the lip/cheek crayon in Mystic is both the pink-nude lip AND rosy blush of my dreams.
