### Nudestix Gel Color Lip and Cheek Balms

Stacie | June 2

I love me some NUDESTIX lip and cheek pencils! I was lucky to be able to try the brand new Gel formula. I've been a huge fan of the brand for quite some time and this new formula is right up there with the others. I find these pencils to be extremely convenient. Each one comes in its own matte black metal tin. Inside the tin are instructions for application, a nice large mirror, a sharpener and a lip pencil.

The gel color lip and cheek balms are available in 8 different shades. Each pencil retails for \$24. They're available at several retailers including Sephora, Urban Outfitters and Beautylish.

The formula is described as *an über-moisturizing lip balm with rich color and gel shine. Formulated with over 30% super-hydrating lip-protecting plant oils Gel Color Lip + Cheek Balm offers vibrant color with smooth coverage. The gel polymers provide a fresh, wet gloss without stickiness.*

Each NUDESTIX comes in a matte black tin.

The pencils make application precise and easy.

Swatches of the 3 shades that I reviewed.

# NUDESTIX

Haven NUDESTIX – a pretty nude color

Pulse NUDESTIX – a plum nude

# NUDESTIX

Luxe NUDESTIX – a coral pink nude

**Verdict:** I love the ease of application of these lip pencils. They also have a huge convenience factor, which I love. They multi task because they can be used on the lips and the cheeks (like all of the NUDESTIX lip products). They have nice color payoff, however they don't last super long on me. With that being said, they do last much longer than typical lip balms which completely disappear immediately. These are super hydrating to my lips and don't feel heavy. I recommend these lip and cheek pencils, especially for use on-the-go! I will definitely be purchasing some of the bolder shades in the future.
