August 26, 2016

Last week I was lucky enough to get the chance to film with one of my faves, Taylor Frankel from **NUDESTIX** to share their new Magnetic Matte & Luminous eye shades! We decided to do a tutorial on an everyday smokey eye- as that's a look I always want to do, but wuss out!

The eye look was easy- we used **NUDESTIX Magnetic Matte Eye Color** in Taupe & Slate with **NUDESTIX Magnetic Luminous Eye Color** in Queen Olive to craft the perfect smokey eye that you can wear anywhere and everywhere, from the bar to the office! I've been wearing this eye look so much lately, it's so easy to do and looks great. I like to pair the look with **NUDESTIX Gel Color Lip + Cheek Balm** in Pulse to complete the look (which reminds me, I still need to review those!)

There are 8 new Magnetic Matte eye shades and 3 new luminous shades, which I have a selection of that I've been testing over the past week since filming. I really like these because they glide on creamy, and have ~45 seconds of play time before setting to a matte finish. They really last well, and with an eye primer underneath I didn't have a creasing problem.

NUDESTIX Magnetic Eye Pencil Swatches: Putty, Terra, Taupe, Slate, Queen Olive, Copper Foil

My favorites of the moment are Slate, Taupe, and Putty, which I use to recreate the everyday smokey eye look. I want to try Fig next, because I love a rosey brown shade on the lid. All of these shades are perfect for fall, so if you're looking for a new fall beauty wardrobe, NUDESTIX has it!
