NUDESTIX MAGNETIC EYE PENCILS

OCTOBER 13, 2016 | JAIME M

Ladies: I have 100% raved about the amazing products from **NUDESTIX's** before and I am about to again right now. I am LOVING their new line of "Magnetic Eye Pencils" and I just know that you will too! So this product eliminates the need for brushes or accessories or extra make up steps to get your intended eye look. I just draw and smudge to create my signature smoky look. This is a 3 in 1 color, liner and base; the pencil is so easy to hold and use; the creamy makeup goes on so super easy. They are full of vitamins to help keep your healthy skin and the perfect addition to my make up bag since I usually go by the motto "the more natural the better". And ladies: this pencil comes with a mirror and sharpener! Please check out this company; I cannot wait to see what they come up with for holiday gift giving!
