## NUDESTIX MAGNETIC MATTE LIP COLOR REVIEW & SWATCHES

January 23, 2017 | By: Olivia Frescura

One of my favorite brands, **NUDESTIX**, have just launched their Magnetic Matte Lip Color: a revolutionary lipstick that goes on like a lipstick, but is super matte & wears like a liquid lipstick without the fuss. I have 5 of their 8 shades, which range from pinks, to corals, to the most wearable nudes and browns.

swatches: vino, burgundy, greystone, rose, boho

I have been loving the shade Rose, but all of the shades are absolutely gorgeous. They apply and wear like a dream- they look super matte...just like a liquid lipstick! I'd recommend to do thick layers and not be too heavy handed, as they can get a bit chunky when you do thick layers. But, you only need a little bit to go a long way! Reapplying is easy as long as most of it is worn off, otherwise you'll end up with chunky lips!

I love these so much- I've been using them a ton. Want to try for yourself? You're in luck! Save 15% on Nudestix.com with code OLIVIAFBB15! Now you don't have a reason not to...pucker up!
