Is the mall finally cool again? After seeing impressive forays into beauty from the likes of Target and Nordstrom, Forever 21 is making its own debut. The budget-friendly fashion destination just launched a brand-new beauty department yesterday, and with an amazing array of everything from Korean beauty essentials to Nudestix to their solid namesake collection, we're officially blown away.

The best part, of course, is that we don't have to spend big to scoop up some of the best items available. With deals like \$5 eyeliner and \$4 makeup sponges, the price is definitely right. Below, find the products we're already coveting.

Nudestix Lip & Cheek Pencil Set (\$15)

Get the best of **Nudestix's** ultra-nourishing, beautifully pigmented lip and cheek formulas in one travel-friendly package—handy sharpener included.
