## 6 Spring Beauty Trends About to Blow Up, According to Pinterest

By: Rebecca Shinnars – March 11, 2017

It may be March, but today I woke up to snow falling outside the window of my New York City apartment. I reached for a dark lipstick, dressed in mostly black clothes, and headed out the door "ready" to face another freezing day. If this sounds familiar, your makeup routine might be a victim of the dreary winter weather. To help you switch things up the moment the weather warms up—or really, any time before that finally happens—we asked Pinterest to reveal the most popular spring beauty trends that people are already searching for.

# NUDESTIX

Don't get us wrong. We're big fans of incorporating daring colors into your makeup routine, like red and yellow eye-shadow. But on Pinterest, people are searching for more neutral tones for a fresh spring look. Perhaps we'll compromise and pair a bronze shimmery eye with bright blue lipstick? Or, if you're going for more of a no-makeup look, use a bronzer—we're big fans of the new **Nudestix** Nudies All Over Face Color Bronze + Glow—to sculpt your face.
