Where Can You Buy NudeStix's Nudies? There's Only One Place To Shop

February 23, 2017 | By Kali Borovic

Get those wallets ready, because **Nudestix** created a new product and you're definitely going to want it in your life. According to their social media sneak peeks, the chubby little double-sided sticks are called Nudies and they're perfect for applying on the go. Where can you buy Nudestix's Nudies, you ask? There's only one place to snag the makeup and it's probably not the place you're thinking of.

If there's anything better than on-the-go beauty items, it's multi-purpose ones. Nudestix's Nudies is made to be used for eyes, lip, and the face all at once. The makeup stick has a cream product on one end and a cruelty-free brush on the other end, according to their Snapchat teasers. This isn't your typical launch though. Instead of selling the product on their site, they're switching it up.

According to Instagram, Nudies will be sold exclusively at Macy's in-store and online on Feb. 24.

The do-it-all sticks won't be sold anywhere else. It's unclear whether these are a permanent item or limited edition though. I would mark your calendars for the big launch, just to be safe. The price has yet to be announced as well. But seeing as it's a three-in-one product, I'm willing to bet it will be well worth the price.

According to the brand's Snapchat, there will be five shades available. It looks like there's a variety of pink shades as well as a few lighter shades as well. All of these colors are matte. Each would look gorgeous on the eyes, lips, or cheeks, so you really can't go wrong with any of them.

These might be a Macy's exclusive, but the packaging is staying the same. Just like the rest of the products, Nudies come in the sleek metal package. According to their Instagram, the on-the-go color will be sold worldwide, so everyone can get in on the fun.

While it doesn't give you a whole lot of time to save up for the beauty launch, it is nice not having to wait!
