By Carla Snuggs | May 7, 2017

Who's ready for Mother's Day? Still hoping to find the perfect gift for mom? For the mom who wants to look as vibrant as she feels, Posh Beauty Blog has rounded up some fabulous skincare, makeup and hair care products! Many can be found at Target, Sephora, Amazon, or your local drugstore, so purchasing your Mother's Day gift last minute is no problem!

### Nudestix

Nudestix has everything mom needs for eyes, lips and face in a convenient stick form. It's super creamy and applies like a dream, plus everything is multi-purpose to create a balanced fresh faced look. Nudestix recently launched their Magnetic Matte Lip Pencils - uber long wearing, smudge proof, kiss proof lip pencils that don't budge! Instead of worrying about messing up your lipstick when your significant other kisses you, now there is no worries about lipstick smudging when your mom or Grandma kisses you on Mother's Day! These lippies are also perfect for the on-the-go mom and come in a variety of different shades. We know that a mom's time is limited and these products take away the extra time that is usually needed to put on makeup. With its mini-tin packaging and portable compact mirror, these are also perfect to throw in a purse or a diaper bag just in case moms need to put on a quick touch up.
