How to Bronze For Fall

August 14, 2017 | LAUREN LEVINGER

Hola, bellas! Bronzing for Fall may sound like a bit of an oxymoron, but everyone still wants to look a little sun-kissed, even when the sun isn't necessarily out!

As you all know, your skin tone changes throughout the year depending on how much time you spend in the sun. And for most of us, during the Fall, it's less time. So I am going to teach you how to look appropriately bronzed for the Fall with more matte and muted products!

Products Used:

It Cosmetics Sunshine in a Compact Vitality Anti-Aging Matte Bronzer

Nudestix Magnetic Luminous Eye Color

Benefit Cosmetics Hoola Matte Bronzer

Tarte Tartelette Clay Matte Eyeshadow Palette
