FASHION's Annual Beauty Awards: 2017's Best Products and Innovations
By FASHION Staff | Date January 4, 2018

This year, we gave our beauty awards a makeover and assembled juries made up of our editors, industry experts, as well as influencers and a few lucky readers, to weigh in on the best new releases in skin care, body care, hair care, makeup, nail polish and fragrance, in 2017. Of course, there are a ton of classic, cult faves, too. We tried all 455 entries, rating them on performance, quality, packaging and ease of use. We also included a "2017 Innovation of the Year" category, looking for revolutionary products that deliver on results.

Before we get started, meet this year's jury!

Beauty Awards 2017

Nudies All Over Face Colour Matte
(\$33, [Nudestix](#))

Best Blush

"I really love the packaging. The built-in brush on the end makes blending the product really easy. I also like that the brush can come off to clean. The product itself looks really natural on the skin, blends really nicely and is long-wearing. It felt really comfortable too." —*Kaitlyn Peterson*

“The dual-end packaging is so helpful for blending. The highlighter leaves a dewy, non-sparkly finish that lasts all day.” —*Souzan Michael*
