Mother's Day Gift Guide – Brands we want to love and Support!

By: Liz | May 1, 2020

Happy Mother's Day! It lasts a month long in my book!!!

Thank you for all your recommendations for our gift guide! We have something for everyone! These brands love and support Moms and are mostly MOM OWNED so we want to show them some love!

A Day of Beauty!

Amethyst Skincare was founded by **Nicole Simpson**, a motivated entrepreneur and accomplished beauty veteran in the aesthetics industry. As founder of Amethyst Skincare, she proves her innovation in the beauty space with a skin care line entirely dedicated to healing & protecting the skin from environmental toxins and skin stressors.

I love the face roller and face oil!

AMETHYST

Amethyst maintains a relationship with TerraCycle to ensure all products (in glass jars) are 100% recyclable, aloe is used instead of water in most products and the brand has a waterless production, in order to preserve natural resources when possible, they are also committed to supporting 4Ocean (for every 5 Amethyst Skincare products sold, 1 lb of plastic is pulled out of the ocean) and they are aiming to be carbon neutral by the end of 2021. Just like the Amethyst stone is known for its healing properties, Amethyst Skincare is designed to heal the skin by restoring the skin barrier while also arming it with the basic needs to neutralize all the environment's free radicals.
