Win It! An Amethyst Skincare Set

October 29, 2020

“Extra” is giving an Amethyst Skincare set to 10 lucky friends. Enter below for your chance to win!

Amethyst is just as passionate about being environmentally conscious as it is about protecting the skin from the environment. They have a close partnership with TerraCycle to ensure all bottles are properly recycled, plus they donate a portion of proceeds to 4Ocean to help remove plastic from the world’s oceans and replace water with aloe in their formulas when possible. They also aim to be climate neutral by 2022.

Each gift set will include the Blue Light Anti-Aging Screen Protector, a serum that reduces more than 70 percent of skin damage from blue light exposure. Enhanced with time-released hyaluronic acid and plant stem cells, this clean, sustainable, vegan, cruelty-free, and high-tech blend provides 24 hours of sustained hydration and molecular-level skin repair.

Winners will also receive the Pure Amethyst Face Roller. Designed to soothe and reduce aging to your skin, the amethyst stone has been used for centuries to improve radiance because the stone is naturally cool and helps reduce redness and inflammation. Daily use of the roller increases microcirculation to the skin, releasing and removing the stress hormone cortisol, which ultimately gives a more youthful and glowing skin tone.
